Thank you for taking a moment to browse through our new catalog. These are all collector's steins that have been produced by various breweries, and are exactly the same items that appear in brewery gift catalogs. They are hand-crafted and make an attractive, colorful display. Collecting of mugs and steins has become a very popular hobby in recent years. Many of the steins issued in the 1970's and early 1980's have increased in value from their original selling price. Beer stein collecting is a fun hobby for the breweriana enthusiast and steins also make great gifts for those that are not active in collecting. There is a stein theme for everyone!

With just a few photographs on the next pages, it may look confusing to a non-expert. We'd be happy to offer assistance over the phone to help you acquire the correct steins. We have been in this business for over 20 years!

Also, we stock many of the issues from a major German Stein importer. Please write or call if there are particular items you are looking to acquire.

**Steinland Gifts & Collectibles is an Authorized Anheuser-Busch Dealer!**

There are over 85 newly released or current issue steins from the Anheuser-Busch Company that are not pictured in this price catalog. We do however offer the complete line of current and new issue steins from Anheuser-Busch. For descriptions and price quotes for new release steins, please give us a call. We would be happy to assist you in adding to your collection.
