LASER CRYSTAL GREAT NEW ITEM!!!

The Anheuser-Busch Collection is proud to present the luminescent beauty of their new line of Laser Crystal. This unique collection features detailed, three-dimensional etchings suspended in clear, cut crystal. Each piece is crafted by skilled artists using state-of-the-art laser technology. These innovative techniques allow the laser to etch inside the crystal with amazing precision, executing detailed images that are so lifelike, you may view them from every angle. They even appear to float — defying gravity. Each piece is gift boxed and comes with a certificate of authenticity.

OLD STYLE LIDDED STEINS

Each year, from 1981-1986, Russell Cleary (chairman of the board, G. Heileman Brewing Co.) gave these lidded steins to special friends and dignitaries only. They were of extreme limited quantity and were stored in the Heileman Brewer's Archives room under lock and key. In October 1989, I was able to negotiate a buyout for all the remaining steins. Further information with production numbers and pictures are available for the asking.
